Postage Meters

Run your mail and print indicia instead of stamps. Postage Meters offer discounts and savings on USPS® rates, as well as cost account tracking and reports.

Folder Inserters

Securely process your mailing by folding documents, inserting into envelopes and then sealing and stacking those envelopes, saving you time and money.

Printer Systems

Whether you're printing addresses on envelopes or four color advertising mail pieces, our printing systems make quick work of even the most complex projects.

Shipping Solutions

- 10 ParcelPods
- 10 OnShip Software
- 10 FP Smart Lockers
- 10 TRAXsuite Online Application

FP Smart Lockers

Take control of your mailroom and assets with secure parcel lockers, the perfect solution to organize and keep track of all your incoming packages.

Digital Solutions

- 11 FP Parcel Shipping
- 11 RemoteOne Software
- 11 ReportOne Software
- 11 MailOne Software

FP Parcel Shipping

A simple step-by-step online shipping application that makes mailing packages simple and offers reduced postage rates.

Modern Mailroom

Solution Oriented Offerings

Our Mission

We pride ourselves on creating a culture that fosters cross-team collaboration and solidarity. It is our mission to continually support your ever-evolving business through unmatched product innovation, cutting-edge service and customer-centric focus.

FP Professional Services

Taking Support to the Next Level

Take on those high-volume mailings with a PostBase® Fusion A120 / Pro DS / ONE. Add a folder inserter, some mailing or shipping software, a couple pieces of furniture and top it off with Pro Services. The FP Professional Services team of expertly trained hardware and software specialists is available throughout the entire sales and installation process to ensure successful results for everyone.

We offer installation, training, and ongoing support for all of FP's Product Lines such as:

- Postage Meters
- Digital Solutions
- Folding & Inserting
- Addressing & Printing
- Shipping Solutions
- OEM Hardware & Software
- Multiple System Integration

Professional Services

Pre/Post Sales Support

- Customer workflow analysis
- Testing of customer samples
- Hardware and software demonstrations (remotely or on-site)
- Assistance with equipment configurations
- Multiple systems integration
- Installation and training
- Initial mailing launch

Mailroom Solutions

Postage Meters

Postage Meters

What is a Postage Meter?

If you regularly send more than a few envelopes, you can save time and money by automating your mailroom processes with a postage meter. Meters accurately weigh and rate mail to print any postage amount and provide postal discounts over stamps.

User Friendly

Engineered with users in mind, the intuitive, icon driven menu makes operating your meter as simple as operating a smartphone.

Professional Image

In addition to a professional mail image, PostBase® meters can run advertisements next to the printed postage such as logos or text messages.

Postal Services

Access postal discounts with a PostBase® postage meter. Custom shortcuts and rate wizard offer easy and accurate selection of USPS® Postal Products.

FP Online Portal

FP offers an easy way to get an overview of your mailing system, access your invoices and orders, and purchase postage and supplies all from a single online platform. Plus, find product specific support and access to FP digital products and services.

Vision360 Online Application Postal Reporting & Analytics

Exclusive to FP's PostBase® Fusion postage meters. Vision360 provides convenient online access for managing cost accounts, meter operators, as well as in depth postal analytics and reporting. Gain insight into your postal expenditures to better monitor, manage, and control your costs. Easily view, print, or download your reports in PDF, Excel, or CSV formats to ensure simple mail management. Optional upgrades available for additional reports and combing metrics.

Vision360

- Up to 250 accounts available
- Optional meter operators with pin codes
- Up to 15 robust reports
- Export PDF, Excel and CSV

All meters come standard with online access to FP Parcel Shipping USPS® rates. Multi-Carrier options available. Read more on page: 11

- Inserts flats up to 10.5" x 13"
- Fold types available: C, Z, V, Double-V and No-Fold (insert only)

FlexStream Software Folder Inserter Document Processing

FlexStream Software is a document automation solution that gives organizations control over their mailing process. With its unmatched versatility, FlexStream automates and simplifies business workflows. It ensures security and document integrity by adding scancodes that are read by the folder inserter. FlexStream allows the user to choose which documents to print and mail, and which to send electronically

FlexStream

- Add folder inserter scancodes (barcodes & OMR) for document set integrity and security
- Gain access to postage discounts
- Correct addresses on-the-fly
- Automate processes, reducing labor time and saving money
- Add variable and static marketing text, graphics, logos or barcodes

File Based Processing® Software Security & Integrity

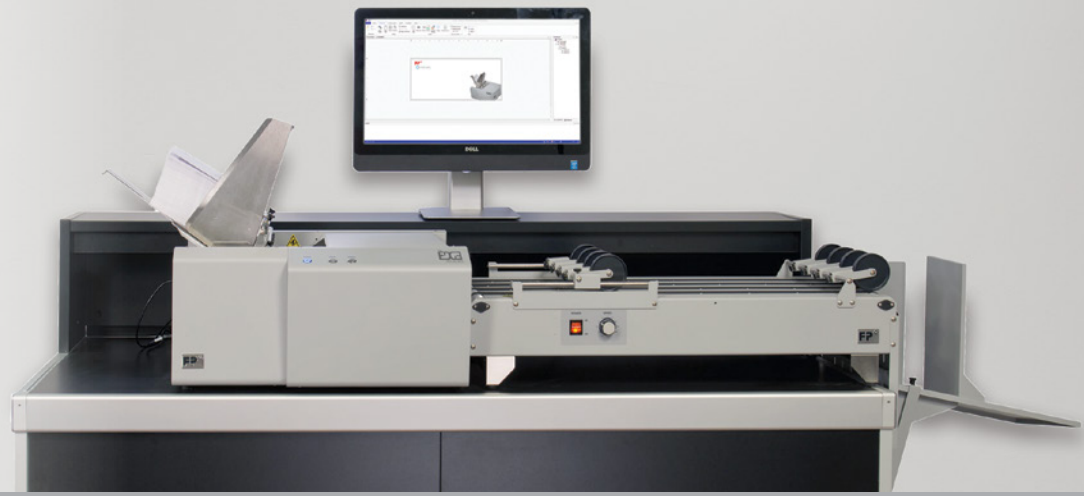

When organizations need to adhere to strict compliance regulations like GLBA or HIPAA, privacy is of the utmost importance. FP Mailing Solutions' File Based Processing® meets these strict compliance standards, ensuring job integrity with constant individual document tracking, and providing evidence that the entire mail run was processed and completed.

File Based Processing

- Compatible with FPi 5130, FPi 6130, FPi 7140, FPi 8140
- Provides verification and confirmation that each recipient's mail piece is correct through individual document tracking
- Reporting for jobs that include a time date stamp for each envelope

Mailroom Solutions Printers

SP1360 Printer Spot Color Printer (1200 dpi)

This affordable printing device, with its ease of use and low total cost of ownership, enables you to produce stunning documents, offer new services, be competitive, and grow your business. Users can get an instant read on the SP1360's status via the color LCD display, with its easy-to-read messaging and graphics.

White spot color gives you the ability to print white on top of colored media as a base color under the CMYK toners to provide the brightest color and coverage possible on dark media.

SP1360

- White toner upgrades
- Prints up to 60 pieces per minute
- Waterproof acrylic based toner
- Handles media up to 15" wide by 13' long

EDGE Printers High Resolution (1600dpi)

With the EDGE printer, effortlessly print marketing messages and vibrant designs that grab the attention of your recipients at a very low cost per print. With the entire EDGE Print Series you have full bleed capability to create dynamic off the edge printing.

The EDGE

- Prints up to 8,000 envelopes or 3,600 sheets per hour
- Up to 8.5" x 17" (banners up to 30") print area
- Handles media up to .5mm thick

EDGE Pro

- Prints up to 9,000 envelopes or 3,600 sheets per hour
- Up to 8.77" x 17" (banners up to 40") print area
- Handles media up to 0.4" thick
- 7" color touchscreen

FlexMail Software Variable Data Printing Solution

FlexMail software allows you to connect to, cleanse, and organize your mailing lists with an easy-to-use interface. Including an envelope design tool to adds graphics, logos, postage indicia, barcodes and ORL.

FlexMail

- CASS Address Validation
- Eliminates duplicate mail pieces
- Works with any printer

Address Printers

Adjustable Resolution (150-600dpi)

This selection of high speed monochrome printers has the ability to print addresses, attention lines, USPS® compliant postal barcodes, return addresses, and spot color permit indicia. The printers have a color touchscreen interface for easy setup and are networkable over Ethernet or Wi-Fi.

AJ -140

AJ -180

- Prints up to 34,000 pieces per hour
- Processes media up to 0.5" thick and 19"(L) x 13.5"(W)
- 4" x 15" print area
- Available in right-to-left and left-to-right operation models
- Optional heavy duty friction feeder
- Designed to use with additional mailroom equipment

Mailroom Solutions Additional Products

Desktop Folders

Desktop folders automate the process of folding single sheets and multiple page document sets. With a wide range of models, FP has a desktop folder to handle your volume and type of folding job.

Pressure Sealers

Our pressure sealers offer a user-friendly solution for processing one-page pressure seal and snap-pack forms, each model can also be used as a standalone paper folder.

Letter Openers

Our line of letter openers have speeds ranging from 24,000 to 40,000 pieces per hour, so you're sure to find a model to fit.

Mailroom Furniture

Our furniture line reduces equipment downtime and service calls by providing a strong, stable platform.

Paper Joggers

Paper Joggers are a quick, compact, and easy-to-use paper preparation solution.

Scales

Our postal scales interface with our line of postage meters and other mailing software, and offer greater weight capacity than the built-in scales for flexible mailing.

Shipping Solutions Products

ParcelPods Storage, Delivery and Tracking

The perfect solution to organize and keep track of all your incoming packages. Ditch the costly efforts of hand delivering packages across large areas and let your customers come to one centralized location. Paired with QTrak, this complete system takes the chain of custody off property owners.

ParcelPod

- Password protected with code sent straight to recipients phone
- Modular design to adjust to package volume
- Locker wraps available to customize with branding and logo

QTrak

- Ability to turn any mobile device into a high-speed scanner
- Real-time tracking information
- Secure cloud based data storage and reporting
- Reroute packages when your not available to receive them
- End-to-end chain of custody

FP Smart Lockers More than Parcel Delivery and Pickup

Our systems provide a safe, secure, and convenient delivery experience with cloud-based software management and analytics. FP Smart Lockers are versatile modular systems designed for both indoor and outdoor installations, and can be temperature controlled for use as food storage.

FP Smart Lockers

- Cloud compatible with Ethernet or Wi-Fi connection
- Pre-loaded management software
- Scalable features and configurations
- Locker wraps available nationwide

TRAXsuite Online Application Track, Monitor, and Deliver Safely

TRAXsuite is a cloud-based inbound parcel tracking solution that enables you to define, notify, track, manage, search, and report on all incoming parcels.

TRAXsuite

- Scan the existing postal barcode & automatically notify user
- Advanced tracking and search metrics
- Add-On modules for rentable assets, letters, and advanced package management

OnShip Software Parcel & Freight Shipping

OnShip is a fully featured, multi-carrier and LTL shipping software solution that re-imagines package and freight shipping. OnShip runs without the complexity of using multiple carrier provided systems.

OnShip

- Comprehensive Management Reports
- Domestic and International options
- Real-Time data exchange
- Integrates to ERP/CRM systems
- Optional Freight Shipping

Digital Solutions Products
